Originally, the "reg" file was included in the installer so the version number was always incremented, but that functionality is no longer included. A fully-functional 30-day evaluation version of Microsoft Visual Studio Community 2019 is also available for download. New features that were released since this article was published: The Microsoft Visual Studio Community 2019 evaluation edition added new features and improvements in the Visual Studio Code extension set, including a new source explorer and extension navigation menu. You must be registered to see your download files. To register with Microsoft please log into your Microsoft account (under the orange User Account icon) and then select Home. You should see a box on the left that says My Downloads. Under My Downloads you will see icons for downloads you have made to your OneDrive. Click on the small Download icon on the right of the icon for the download you want. More Information about the Microsoft Community Evaluation Edition You will be taken to the download web page of the download you selected. You will see a screen saying that the download is complete. Your download will be available for a 30-day trial before you must purchase a full version of Visual Studio Community 2019. The trial version of Visual Studio Community includes the following: Visual Studio Community 2019 Enterprise ready 82138339de
