Saina Nehwal's triumph in the 2018 Commonwealth Games had perhaps drawn a line on women's badminton in India. Men's singles now reign supreme in the country. The men's shuttlers will find themselves sharing the limelight with the equally-skilled (and equally-crowded) women's division. For the eighth time, India's badminton enthusiasts will gather for the SAI Badminton World Federation Superseries Finals here. All eyes will be on Saina, as no other Indian player commands the same hype or popularity as she does. For the first time since 1982, India's badminton teams will be comprised of only women. This is a major change as the country's badminton fraternity has traditionally been open to women. India's pool of decent men's players has shrunk recently, with young players like Sandeep Vishwanathan, 24, opting to focus on other sports. Only three men have a realistic shot at winning medals in London. Ever since Saina's historic run of four consecutive gold medals in 2014, her place

Hi, i am Aghadev from India. I am totally a Windows junkie and love these kinds of things that work with Windows and are not just a gimmick like other themes in the market. I too had a tough time finding themes that did justice to the game and this one did it for me. I would strongly recommend this if you love Crysis series. You must be logged in to post a comment. I had mine installed. It changed the COS to UMG. I installed a few more themes, but none of them worked. So I just set it to the Crysis 3 default desktop background and I am good to go. The images are awesome. I would highly recommend this theme to all Crysis fans, if they want a nice theme and they have not installed it already. Is there any colorblind and/or dark background for this theme, I have installed it but the background is just black and light gray and there is no color blind for this theme, please anyone can help me Thanks, Yogi You must be logged in to post a comment. Hiya! I have been using this theme for the past couple of weeks and just love it. It's the first theme I have ever bought, which makes it extra special. The only improvement I'd like to see is the ability to change the color in the desktop icons for easy identification of opened applications. You must be logged in to post a comment. I
